VENTURE
BEAT

The screenshot shows the VentureBeat website with the article 'Turbulenz raises \$5M for online game platform' by Dean Takahashi, dated November 10, 2010. The article text reads: 'English game developer Turbulenz has raised \$5 million for its platform for publishing and making money from online browser games. Scheduled for a 2011 launch, the Guildford, England-based company's platform allows developers to rapidly create and then publish online games. The company hopes to provide a complete solution for game developers to create content that can be published and monetized on a worldwide basis. In contrast to current game middleware (software tools), this technology has... Continue'.

REUTERS
